

Standard Packages for Coated Yarns

In order to provide our customers with PTFE coated yarn products in the most useful package for their application, W.F. Lake Corp. produces a wide variety of precision wound spools and bobbins. We offer more than a dozen different tube options. If you consider individual winding choices, number of ends up, color combinations etc... the possibilities are almost endless! Please take a moment to review our standard packages for your requirements and don't hesitate to ask if you do not see one to meet your needs. We're always ready to consult regarding options and will work together to come up with a custom product that best meets your needs.
