L11-Series PTFE Coated Fiberglass Fabric

“High Build” Grade

W.F. Lake Corp. manufactures its PTFE coated fiberglass fabrics using the highest quality woven fiberglass fabrics available. Our process first impregnates the fibers and then coats the surface with a smooth uniform PTFE coating, enhancing release characteristics and making it resistant to build-up of contaminants and oils. In addition it repels attack by most acids and alkalis. L11-series fabrics are well suited for most applications requiring a smooth non-stick surface in a dimensionally stable form, operating at extreme temperatures and in chemically aggressive environments.

**Features**
- High Temperature Resistance
- High Strength Fiberglass Substrate
- Dimensional Stability
- Uniform PTFE coating
- Flexibility
- Smooth Coating

**Benefits**
- Non-Stick
- Low Friction
- Chemical Resistance
- Thermal Shock Resistance
- Flexibility
- FDA Compliant (title 21)

Elongation of fiberglass fabrics is less than 5%

Operating Temperature: Min –200 to Max 550 deg. F, Intermittent to 600 deg. F.

Thickness shown is nominal, however, most fabrics are +/- 10%.

Widths are standard at 38”. Other typical widths include 41” & 48”. Slit rolls available.

Please consult the factory or W.F. Lake Corp. literature for available alternatives.

Values are typical and should not be used for writing specifications. All data is subject to change without notice.

*Reg. Chemours

**Applications:**

- Release film for heat sealer bars and laminating/thermal transfer presses
- High temperature or chemically resistant gaskets
- Diaphragms or seals
- Cooking sheets
- High performance belting

575 deg. Fahrenheit

300 deg. Celsius

Over 50 styles of PTFE Coated Fiberglass and Kevlar* fabrics !
W.F. Lake Corp. manufactures high performance PTFE and Silicone coated products designed for extreme operating environments. Our non-stick, temperature and chemical resistant materials are uniquely suited for a wide variety of specialized industrial applications in a number of diverse industries. By combining our broad based in-house processing and converting capabilities, we are able to offer you creatively engineered products especially suited to your application. Give us a call to discuss your material needs... we’re ready to help!

We manufacture the industry’s widest range of PTFE Coated Fiberglass products!
