## Dodge Fibers Oak/Fluorglas W.F. Lake Corp.

Allied Signal **Dodge Fibers** Furon Oak Materials W.F. Lake Corp. 1956 1988 1991 1996 1997 1967 2006 2015 2021

Dodge Industries purchased Oak Materials Group.

W.F. Lake Corp. founded by Jim Meyer & John Hodgkins, long time Fluorglas empolyees

W.F.Lake Corp moves into new dedicated manufacturing facility.

W.F. Lake Corp. celebrates 15 years of manufacturing PTFE coated yarn, thread, fabrics, tapes and belts!

Plant expansion complete. Additional coating capacity being added for continued growth!

Dodge Industries develops PTFE coated fiberglass yarn for the wire & cable industry. White, colors, unsintered, sintered, braider bobbins etc... Manufacturing operation started in Hoosick Falls, NY. in the "John Street" plant.

Oak Materials Group sells Fluorglas Division to Allied-Signal. Included is the PTFE coated yarn, thread, and braiding operation originally founded as Dodge Fibers Corporation.

Furon Corp. acquires the Fluorglas, Hoosick Falls, NY business from Allied Signal Corp.

W.F. Lake Corp. acquires the assets of the Furon/Fluorglas PTFE coated fiberglass yarn, thread and braid operation. The transition to Lake's plant is completed over a 6 month period allowing for extensive cross training. Lake expands capacity by 50% in the new plant and replaces or rebuilds virtually every piece of equipment.

W.F. Lake Corp. celebrates 30 years of operation! THANK YOU to all of our customers for your continued support! Here's to many more years!
